

Certificate of Conformity

SDC Multifibre SLW

Product Code: 2195 and 2200

Unit Size	10m Roll and 50m Roll
Batch:	SLWA
Year of Manufacture:	2015 ** CONTAINS SECURITY THREAD **

Statement of Conformity

This is to certify that the SDC Multifibre SLW has been produced and independently tested to conform to the SDCE specification

Independent Testing

Where applicable, to ensure that all results are accurate, unbiased and impartial, testing is carried out in **Independent UKAS Accredited Test Laboratories**.

Internal controls for SDC Multifibre LyoW require that:

- To ensure continuity of staining every batch of yarn is tested before, and again after weaving.
- Any change of a single component results in every component being re-tested to certify conformity.

Internal Master Standards

Conformity of Multifibre over time, between and within batches is vital to give consistent test results and enable accurate comparison of test specimens to performance requirements.

SDC Multifibre SLW is compared during every test with an Internal Historical Master Standard, this guarantees no drift in performance over time. (There is no International Master Standard and the SDC Master has never been released for commercial purposes.)

Packaging

Please ensure that the product is retained in its original SDCE packaging, which contains the correct batch details. All product packaging is tested to ensure there are no contaminants or BHT content that could cause fabric yellowing.

Pack sizes are measured and approved using UK weights and measures act.
